

Assignment #6

Batting Keeping

MS Dhoni, right from his early days preferred batting over keeping. But his school Coach KR Banerjee was much determined of trying him out behind the stumps. So every day when his Coach was available in the ground during the net practice, Dhoni got himself trained for wicket-keeping. But in his absence, Dhoni exercised his batting skills.

Write a program that gets the status of the Coach if he is available or not available and displays whether Dhoni is batting or keeping at the nets.

Input Format:

First line of the input specifies the status of the Coach. It is "Yes" if Coach is available or "No" if he isn't available.

Output Format:

Output should display "Keeping" if Coach is Available else print "Batting". If any other input other than Yes or No is given, print "Invalid Input".

Sample input 1:

Yes

Sample output 1:

Keeping

Sample input 2:

No

Sample output 2:

Batting

Sample input 3:

Out

Sample output 3:

Invalid Input
